## **DETAILED ACTION**

### ***Priority***

1. Receipt of acknowledged of papers submitted under 35 U.S.C. 119 (a) – (d), which papers have placed of record in the file.

### ***Oath/Declaration***

2. Oath and declaration filed on 7/16/2003 is accepted.

### ***Allowable Subject Matter***

3. Claims 1 – 10 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 9, and 10, for example which include a projection lens apparatus of a projector comprising a rear lens barrel comprising a second reflection group that projects the incident image towards the reflection group and the rear lens barrel connected to the main lens barrel to move forward and

Art Unit: 2873

backward to adjust the optical axis and a pressing mechanism that elastically presses the rear lens barrel with respect to the main lens barrel in the direction of the optical axis, thereby rear lens barrel at predetermined position .

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The closest prior art

Takanashi (6,661,589 B2) discloses lens barrel.

Miyakawa (US 2002/0067556 A1) discloses lens barrel and optical apparatus with lens barrel.

Hoshide et al (US 2004/0027692 A1) discloses lens mounting mechanism and projector apparatus.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
